kelcey:

thanks for taking the time to chat on the phone the other day. this is my official request for the site file from the libby/graves case. i'd like the self-executing version. i'm eager to take a look at any documents you have, but i'm particularly interested in learning more about where the vermiculite mined at libby ended up, i.e., processing plants, products, homes, etc. and, as always, it's a sooner the better request. thanks again for your assistance. i'll look forward to hearing from you.
